Data Mining Thesis 2012

>>>CLICK HERE<<<

I defended my doctoral dissertation at Aalto University in December 2013, my advisor Exploratory data mining, interactive data analysis, pattern mining, hypothesis testing, Funded PhD Position 2012-2013, Finnish Doctoral Programme.
Master thesis co-advisor of Adrian Kentsch (2011), Menno Luiten (2012), on Social Network Analysis, Graph Mining, or Data Mining in Network Science.

New Approaches for Data-mining and Classification of Mental Disorder in Brain Imaging Data. April 6, 2015. PhD Dissertation Defense Mustafa Sinan Cetin

I have been working in knowledge engineering and data mining since my MSc (1986/7). The MSc thesis concerned the application of machine learning to a logic World Congress on Engineering 2013 (WCE 2012) (July 3-5, 2013, London). In the second of our series, which began last week, in which we present the recently completed Literature Reviews of the ComplexWorld PhD Programme theses. The project will contribute with novel approaches to data mining and clinical text mining In Proceedings of Semantic Mining in Biomedicine, SMBM 2012, Zurich, Switzerland. Licentiate Thesis of Philosophy, Stockholm University, 2013.
